

## LX2007 News

Once more I like to remember, that it is not necessary to sent cards at all. For each QSO we will put a card to the buro. SWL cards will also be answered as soon we receive them.

**Around 13.500 Qsl Cards left the buro now.**

Please avoid double contacts, same band same mode.

I like to thank Norby, LX1NO for the big effort in June, a total of 7614 Q's made by him during a 4 week in activity in June.

There were already several requests for the LX2007D, mostly CW is needed. We do not have an active CW operator in that area. We are looking to go for a CW operation in the D - area in September or October. The exact date is going to be announced here. So please check from time to time.

Summary so far:

### LX2007L

Qso number **12.338**

Phone - 4754

CW - 6463
