2007 with its lowest sunspots, we did a maximum to work as many we could. So 40 and 20 Meters were the most popular bands.

During the summer break we saw that we needed more QSL'cards. A total of 45.000 Cards have been printed, 15.000 for each call, all sent via buro.

Marc, LX1OM, was so kind to analyze our log, here are see some numbers.

Total QSO's LX2007:

QSL design was created by Marc, LX1OM. Pictures were taken by my self; photography is one of my other hobbies.

It's not necessary to send a card, we already sent all cards via buro. A total of around 300 direct cards were answered. Many SWL were sent too.

We saw an increase of our national website visit up to 5.000 visits a month. In July we had a top of 7667 visits.

Our award manager Phil, LX2A reported many request for the special award.

All QSO's are on QSL.NET online and EQSL as well. LoTW is planed.

A video of a LX2007D activity (LX2A, LX1HD and myself) can be seen on our website in the forum.

Future plans, all I can say for now that there will be a large activity in 2012 for 75th birthday of the national Club RL.

Thanks one's more to all of you
